Dear John

Thank you for your faxes of June 9 and May 17. I have passed these on to Raymond Louw and Willie Currie.

There have been some developments here working in tandem with your ideas on a Training Institute. The Campaign for Open Media is holding a joint workshop with the Friedrich Ebert Stiftung (FES) on June 24 and 25 in Johannesburg to discuss broadcasting training and development needs. Included is an invitation to you to attend.

We are preparing an agenda for this workshop on Friday and will be faxing participants the details early next week. FES wants the workshop to draft a joint funding proposal for the European Community for the formation of a broadcast development network/institute to co-ordinate the myriad of initiatives happening here.

The workshop would be an appropriate forum in which to articulate your proposals.

Regards
Jeanette Minnie
