Telephone: (011) 29-6287/29-4355 Fax: (011) 29-4354

15/06/92

Dear Hendrik

Further to the fax Raymond Louw sent you earlier today, this is a more detailed description of the person we are seeking.

Regards  
Jeanette

## Telecommunications Expert:

- \* expert knowledge of electronic engineering with regard to both policy and technical/practical issues
- \* knowledge of international satellite technology and implications for national telecommunications policy
- \* knowledge of how telecommunications companies operate, viz Telkom and foreign private sector telecommunications companies
- \* preferably knowledge of how the above issues are translated into national telecommunications legislation and international instruments (ie space and satellite treaties)
- \* specifically, knowledge of how the following broadcast and telecommunications technologies and media operate and policy issues for legislation: cable, pay-tv, radio, terrestrial television, satellite etc

J. B. Marais

Telkom is the state-owned telecommunications company of South Africa through which all telecommunications is regulated.
