

The Media & ICT Programme advocates for universal service & access, in addition to plurality of the media, broadcasting and telecommunication, and policy regulation and access. On regional level, the Media & ICT programme undertakes issues regarding public broadcasting & communication regulation. Lobbying effects extend to the implementation of affordable Universal service in telecommunications, media owners, hip & control regulations and to the viability & independence of community radio. The Programme is working closely with community – based organisations & focusing specifically on capacitating people at the grassroots level. Media & ICT Programme campaigns include: Community Media, Media Diversity, Public Broadcasting & Communications Regulations.
